

Kathmandu Day Tour

Trip Overview

The Kathmandu Day Tour takes you to the heart of the capital city of Nepal. Everything about this is exciting. The hustle and bustle of the city add more charm to the already architecturally beautiful Kathmandu. The UNESCO-listed heritages of Kathmandu—temples, palaces, villages, monasteries, and the Newari communities—are the glory of Kathmandu. Many places are still not explored, but they are very beautiful. The people are another highlight of the tour. You get to meet people of more color and tradition, which might be amusing for you living in the small city of Kathmandu. Hence, a culturally rich Kathmandu full of people from all over Nepal sharing the harmony of love and culture might give you a cultural trip.

Kathmandu day tour is a scenic and exciting trip where you can explore the culturally rich along with religious Kathmandu. The infamous Pashupatinath temple, Boudhanath, and Swayambhunath are the places where you can experience the spiritual Kathmandu. Or you can roam around Basantapur, mostly inhabited by the Newari community and also the meeting hub for the Nepalese. Here, you can visit Kathmandu Durbar Square and Kumari Ghar. Both of these attractions hold the history of Nepal. Kumari is a living goddess and her residence is one of the famous highlights among visitors. In every corner of Kathmandu, you can see the different lights and colors reflecting the beauty of Kathmandu. Even though, it is the most crowded place in Nepal. You can do and find many things to do while you are in Kathmandu.
